

# Collection of urine for chlamydia

The patient must not have urinated for at least 1 hour before collection.

Patient is to collect the first 15-20ml passed.

Screw the lid on tightly, and write your name, date of birth and the date and time of collection on the container.

Deliver sample and request form to the laboratory as soon as possible.

**If you require further information regarding your test procedure, please telephone Taranaki Medlab:**
